Subject: Re: Daily Automated Viper Data Export for the R02 Canadian Radium Site

Hi Folks,

I noticed that the account below was locked out this morning so I unlocked it.

Is anyone having trouble logging in?

Subject: Daily Automated Viper Data Export for the R02 Canadian Radium Site

All,

Each day at 6pm an automated data export will run and a zip file of the data will be posted to the secure website listed below. You can login shortly after 6pm and retrieve a data export for the prior 12 hours. Below is the login information:

Website: <https://viper.ert.org/R02CanadianRadium>

Username: R02CanadianRadium

Password: CanadianRadium1! (case sensitive)

When looking at the data export, please remember to format the date/time correctly - down to the seconds - in order to see exactly what time a reading was received. Feel free to contact ERT support for assistance with formatting that column.

Please let us know if you have any questions or need any additional assistance.
